DETAILED ACTION

Drawings

1. The drawings were received on November 5, 2005. These drawings are acceptable.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Adam Keser January 10, 2008.

3. The application has been amended as follows:

In the Claims:

Please cancel claims 18, 19, 23 and 26.

Change claim 13 to --An integrated circuit package comprising: a substrate having a plurality of conductive traces; a plurality of balls disposed on a first surface of said substrate, such that said plurality of balls are electrically connected to said plurality of conductive traces; a semiconductor die mounted to said substrate, such that said semiconductor die is electrically connected to said plurality of conductive traces of said substrate; an overmold material encapsulating said semiconductor die and said balls on said substrate such that portions of said balls that are disposed farthest from said substrate are exposed at an exterior of said integrated circuit package; a ball grid array disposed on a second surface of said substrate and in electrical

connection with said conductive traces; and a die adapter mounted on said semiconductor die and encapsulated in said overmold material. --.

Allowable Subject Matter

4. Claims 13, 15-17, 20, 22, 25 and 27 are allowed over prior art of record.

Reasons for Allowance

5. The following is an examiner's statement of reasons for allowance:

The prior art of record neither anticipates nor renders obvious the claimed subject matter of the instant application as a whole either taken alone or in combination, in particular, prior art of record does not teach "a plurality of balls disposed on a first surface of said substrate, such that said plurality of balls are electrically connected to said plurality of conductive traces; and a die adapter mounted on said semiconductor die and encapsulated in said overmold material," as recited in claim 13.

Claim 15-17, 20, 22, 25 and 27 are also allowed as being dependent of the allowed independent base claim.

Conclusion

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
